
(a) One OCT volume: 100 of its 200 B-scans, each 256 patch tokens
200 B-scans per volume, 200 × 200 px
used: 100, evenly spaced
skipped
indices 0, 2, ..., 196, 199 (pretraining and evaluation)
resize
256 × 256 px
16 × 16 patches
N = 256 tokens
